Crossfield School Fair Monday, September 7

Everything is in readiness for the first annual Crossfield and District School Fair which is to be held at Fair Grounds, Monday, Sept. 7th.

Program and the Time of Events:
1. All exhibits to be at the Fair Grounds not later than 9.30 a. m.
2. The Schools to assemble at the old site of the Atlas Lumber Co. to parade to the Fair Grounds at 10.30 a.m.
3. Sports to commence at 1.30.
4. Picnic lunch at 12 o'clock.
5. Exhibits open to the public at 3.30 p.m.
6. Livestock Parade at 4.30 p.m.
7. No exhibits to be removed from the grounds until 5.30 p.m.

School Fair Notes

Have your entries in early. Parents and teachers should bear in mind that this a junior competition. The work must be done by them.

The primary reason for the School Fair is to promote the spirit of thrift, self reliance, fair play and good sportsmanship. If in order to win a prize the parents or teachers do any of the actual work, they are not only playing unfair to those who do play the game but are losing the only benefit to be gained from it.

The public in general are asked to join in the School Fair Parade on Monday morning next. Mayor Williams will lead the parade and all those who can spare thirty minutes to help along this good cause are asked to turn out in their cars at 10.30 on Monday morning and assemble at the Atlas Lumber Co's former site on Main Street.

Mr. Frank Colliott has a surprise in store for the boy or girl winning his prize of a purebred Hereford heifer. Mr. Colliott is going to give the winner of this prize, a heifer that won first prize at both Calgary and Edmonton Exhibitions this summer. This is without doubt the most valuable prize ever offered at a School Fair.

FRANK LAUT MARKETS FIRST 1931 WHEAT

For the second year in succession Frank Laut has the honor of marketing the first load of 1931 wheat. Mr. Laut started combining early on Wednesday morning and hauled in several truck loads to the Pool elevator during the day. The wheat is Garnet and is yielding around 20 bushels to the acre 38 lbs. to the bushel and grading a two.

I SAW:

Happy McMillan taking home a crook. Joe Demeres reading his school tax notice and trying to figure out who in hell is responsible for the increase. T. Tredaway as busy as a bee getting ready for the School Fair. Gudmund! smacking his lips after a "Dick Smith." Tom Fitzgerald looking for a mechanic to fix a worn out blnder. Fred Stevens on his way to the slaughter house to kill a porker. Milt McCool with his overalls on and helping harvest his crop. I notice one of our prominent citizens keeps his car nicely shined up by using a pair of silk bloomers--No, you are wrong again, he found them at Bowmans Park. Dad Halliday weighing himself after a week on a milk diet. Dan Fike working off some of that bay window he put on while on his trip to the States. Dad Gibson dancing an Irish jig. Adam Cruickshank doing an artistic job of kalsomining at the Oliver. Charlie Midland and Geo. Lenz returning from the wedding in Calgary and both sober. Geo. Allonby driving back to town with two play boys who thought they could stock grain.

BACK TO SCHOOL

The local school re-opened for the fall and winter term on Tuesday, September 1st. Mr. Collier, B. A. is in charge of the High School and will also act as principal; Mr. Tweedie, B. A. is in charge of the senior room; Miss Alice Colliott in charge of the junior room; whilst Miss Edith Seville will officiate in the primary room.

During the holidays the school trustees have been alive to the fact that improvements could be made to the building. W. Major has been busy painting the roof and fixing up the eavestroughing, also stripping the shingles off the tower which was in a leaky condition, and substituting asphalt covered with tar and sand. The caretaker has also been busy with the paint brush, giving the outside window frames a much needed coat of paint; also several bad holes in the plaster have been repaired by stripping off the old plaster and putting up plaster board; the furniture has also been varnished. The school inside and outside now appears in a good and clean condition. We also notice the name Crossfield School District has been painted on the front of the tower and visitors passing will no longer wonder if its a school or a jail.

THE HARVEST

With ideal harvest weather in this district, about 75 per cent of the cutting has been done. Frank Laut and Everett Bills have already started combining and others plan to start this week. Crops in general are turning out better than at first expected as many farmers are using more twine than they estimated. What is expected to average around 20 bushels to the acre for the district.

Cutting Grain Day and Night

Clarence Havens finished cutting today (Thursday). Mr. Havens cut 325 acres in eight days and two nights with one binder. It is not very often, if ever, that you hear of a farmer cutting grain all night, but Clarence took advantage of two moonlight nights and plugged right through only stopping to change horses and switch men. We are told that Wilson Stafford also took advantage of a beautiful moonlight night to keep his three binders running for 24 hours.

VILLAGE PROPERTY TAX SALE

This week our columns carry the list of property being offered for sale by public auction under the Tax Recovery Act of the Province of Alberta. Some of these parcels of land have buildings upon them, and no doubt will be redeemed before date of the sale, which is strictly legal, as any owner may call at the village office and pay his taxes prior to the sale and have it taken off the tax sale list even though it has been advertised as for sale.

Any person interested may obtain full information as to property named in the list by inquiring at the village office. Any piece of property not sold at the Tax Sale comes to the Village of Crossfield, but the owner has one year in which to redeem the property. If however the property be sold, it passes entirely out of the hands of the owner with no redemption privileges.

A PUBLIC HOLIDAY

Monday, September 7, being Labor Day and a public holiday, all stores will be closed. Wednesday, Aug. 26 was the last of the summer half-holidays, and from now on the stores will be open all day Wednesday.

The post office will be closed on Monday (Labor Day) except between 10.00 and 11.00 a.m.

NOTICE

To Shareholders and The General Public

On and after August 1, 1931, and until further notice, we will allow 50c per bushel for No. 1 Wheat, F.O.B. Crossfield; other grades in proportion, for all debts incurred prior to January 1, 1930.

In passing the above resolution the Board took into account the fact that these debts were incurred at a time when the farmers' produce was worth three times what it is today.

The Board felt that it was hardly fair to expect the customer to bear all this loss; and, by this means, they are prepared to share a part of the burden.

Vacation Musings

The writer of this column is on a brief vacation, and he intends enjoy it to the full. During the blistering hot days of the summer with its strong hot winds and choking dust storms he stayed "on the job." Now he has tied himself to the lakes and the woods to rest and to play. He proposes to fill his column this week through the medium of a pair of scissors and a paste pot. This is not an altogether unknown procedure on the part of some editors, but open confession is not always made as frankly as in the present instance.

In starting on his vacation, the writer desired to get away not only from the hot city pavements, but even more so from the constant talk of depression, hard times, unemployment, which forms the basis of conversation on every hand. He felt it would be a great relief to get back to Mother Nature, and listen to the rippling of the water, the murmuring of the leaves, the song of the birds, and the droning of the bees and insects.

And for his reading he brought along, not a daily newspaper, nor a fiction magazine, nor text books and bulletins on economics, finance or salesmanship, but some little pocket editions of essays by and wise sayings of other men. And it is with scissors and paste pot in this idle hour that he proposes to pass a few of these gems on to the readers of this column in the hope that, for a little time at least, their thoughts may be diverted from those things which lead to present discouragement. So, here goes:

"Like most garrets, everything in life has a right side and a wrong side. You can take any joy, and by turning it around find troubles on the other side; or you may take the greatest trouble, and by turning it around find joy on the other side. The gloomiest mountain never casts a shadow on both sides at once, nor does the greatest of life's calamities."

"When you make a mistake, don't look back at it long. Take the reason of the thing into your own mind, and then look forward. Mistakes are lessons of wisdom. . . . The past cannot be changed. The future is yet in your power."

"A great many people criticize and find fault; that's jawbone. Some wish things were better, but do nothing to help; that's wishbone. Others co-operate and do things, that's backbone."

"When you get into a tight place and everything goes against you till it seems as though you could not hold on a minute longer, never give up then; for that is just the place and time that the tide will turn."

"Nothing is easier than fail finding; no talent, no self-denial, no brains, no character are required to set up in the grumbling business."

"The most trifling actions that affect a man's credit are to be regarded the sound of your hammer at five in the morning, or nine at night, heard by a creditor, makes him say six months longer; but if he has you at a billiard table, or hears your voice at a tavern, when you should be at work, he sends for his money the next day."

"The tendency to persevere, to persist in spite of hindrances, discouragements, and impossibilities: it is this that in all things distinguishes the strong soul from the weak."

"Of every good quality, there is an excess which is undesirable. Excess of self-reliance leads to secretiveness and mulish obstinacy; of curiosity to impudence; of imagination to hesitation and inaction; of foresight to indecision; of patience to weak submission; and so on. To give due weight, and no more than its due weight, to each ingredient in the composition of our character, we are fortunate if we are blessed with the twin senses, a sense of proportion and a sense of humor. As a sweetener of life, preserving the rich and successful from odious self-satisfaction and helping all to banish the demons of discontent and ill-will there is nothing to compare with a sense of humor."

"Speaking of unemployment, says 'Life Magazine,' the average man has 12,000,000,000 brain cells. Get busy. Put them to work."

When skies are kind of gloomy,
And the outlook awful dim,
Just keep on keeping on.

Market For Wheat In Ireland

Senator Esmond Of Irish Free State Points To Opportunity

Canada should be able to enter into a mutually satisfactory trade agreement with the Irish Free State, in the opinion of Senator Sir Thomas Grafton Esmond, member of the Upper House of the Irish Dail, passing through Montreal after fishing expedition with Lady Esmond among the salmon streams of Quebec.

"Canada should be able to sell us much of our wheat," he said. "The Free State buys three-quarters of its wheat requirements abroad, and there should be no reason why Canada could not make a treaty with us on the same lines as that under discussion with New Zealand and that concluded with Australia. I certainly shall look into the subject when I get back to Dublin."

Speedy Mail Delivery

A record for speedy mail distribution was made by the Canadian Pacific liner "Empress of Britain" the other day when letters posted in London at 6:15 p.m., July 28th, were landed in Montreal and distributed before 10:30 a.m. on August 3rd, the time made with Canadian Airways "plane picking up the sacks at Father Point), being thus 5 days, 16 hours and 15 minutes.

Dysentery Is a Very Dangerous Bowel Complaint

Mrs. E. M. Ward, 687 Ave. H. South, Saskatoon, Sask., writes: "When my husband was Franco he took dysentery, and was in hospital over a year. Ever since he came back he has had the attacks three or four times a year. I cannot emphasize the good Dr. Fowler's Extract of Wild Strawberry has done for him. He generally takes a few doses and gets relief in a few hours."

"I cannot speak too highly of your excellent remedy, and you may be sure we are never without a bottle of it in the house."

Trade In Trees Curbed

Restrictions Necessary To Prevent Spread Of Insect Plagues

Restrictions have been placed by the Department of Agriculture on the movement of poplars and willows from the Maritime Provinces and certain areas in British Columbia because of the satin moth. Gaining a foothold in Nova Scotia and New Brunswick in 1880 after it had made inroads in British Columbia some years ago, the satin moth is a native of Europe and Asia. The restrictive regulations were passed to prevent its further distribution.

Importation into Canada of several varieties of pine wood has been banned by the Department of Agriculture because of insect plagues. On account of the white pine blister rust, every variety of the five-leaved spruce from all countries has been denied entrance to Canada. Imports of Austrian, Scotch and Swiss mountain pines has been prohibited because of the European spruce sawfly moth. Recent shipments of pine from these countries have been found to be infested with the moth.

Recipes For This Week

(By Betty Barclay)

PICKLED PEARS

4 quarts pears.
2 pounds white sugar.
2 cups vinegar.
1/2 ounce stick cinnamon.
1/2 ounce whole cloves.
Peel pears. Boil the sugar, the vinegar, the cloves, and the cinnamon for 20 minutes. Place a few of the whole pears at a time in the syrup, and cook them until they are tender. Pack them into thoroughly cleaned jars. Adjust the rubbers, and fill each jar to overflowing with the hot syrup. Adjust the covers and seal the jars immediately.

CUCUMBER CATCHUP

1 quart ripe cucumbers, large.
1 cup white onions.
2 green peppers, medium-sized.
1 pint vinegar.
1 cup sugar.
2 tablespoons white mustard seed.
Salt and cayenne pepper.
Pare the cucumbers. Cut in quarters and remove the pulp. Put the cucumbers, onions, and peppers through a food chopper. Add a small amount of water to prevent sticking, and boil the mixture until the cucumbers are tender. Heat the vinegar, sugar, and seasonings together. Add the vegetable mixture and cook it until it is clear. Seal in clean hot bottles or jars.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or crying, but at their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from their dose there is improvement in the condition of the sufferer and a cessation of manifestation of internal trouble.

Farmers Out Of Work

If Given Assistance Might Go On Land Again

The Province and the Dominion could perform no better national service at the present time than by making it possible for such men to re-establish themselves on small farms. The farms are available. Men can buy them at prices which will not mean a heavy burden of debt. They are small farms, with some land broken and some buildings up. About all that is necessary for the Government to do is to give assurance that help in the form of food and clothing will be available through the coming winter as required. No more aid will be required to be given, in fact in all probability less than would be required to maintain these men and their families in the city through the winter. The Provincial and Federal Governments would actually save money by getting these farmers re-established on farms, and, as well, taking constructive steps to relieve unemployment conditions.—Winnipeg Tribune.

Dragged Down By Asthma. The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength and energy is taken away from life becomes a dreary existence. And yet there is need. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tube and guards against future trouble. Try it.

Survey Of Pasture Lands

A complete survey of all pasture lands in Canada is to be conducted by Prof. L. E. Kirk, of the University of Saskatchewan, announcement of whose appointment as Dominion Agrologist was made in the House of Commons the other day by Hon. Robert Weir, Minister of Agriculture.

A new electric device tells exactly how sheer a silk stocking is.

W. N. U. 1905

Child's Health Should

Be Carefully Checked

So That Conditions Which Are Handicap Can Be Corrected

In many places they have what is called a summer round-up of the children who are to start school for the first time in autumn. The idea of the round-up is to have the children medically examined. Those who, at that time, are found to be in need of medical care are sent to their doctor and their dentist for treatment in order that when they start school in the autumn they will be physically fit.

Parents should not wait until the child is ready to go to school to have this done, says the health service of the Canadian Medical Association. However, if they have neglected this point, it is best to attend to it now.

One of the commonest and most serious mistakes that parents make is to allow an abnormal condition to persist with the idea that the child will grow out of it, or that he is too young to have treatment.

The child who cannot see without glasses is obviously handicapped until he has been fitted with proper glasses. The child who has a running ear is almost surely on his way to deafness, which is a serious handicap. It is obvious that parents should not allow their child to grow up with such conditions.

Not only are diseased tonsils and teeth a handicap to the child, but they are dangerous in that they poison the body, and are, it is believed, very often the cause of heart and kidney disease in later life. No child should be handicapped by conditions which can be corrected by proper treatment. There should be no delay in securing treatment simply because of the mistaken idea that the defects are not serious, or that the child is too young for the treatment or that he will grow out of the defects.

Persian Balm — alluring prophetic and charming. Fragrant and refreshing as a cool breeze in summer. Delightful to use. Creates complexion of surpassing loveliness. Makes the skin velvety soft in texture. Soothes and dispels all irritations caused by weather conditions. Softens and whitens the face. Persian Balm is a peerless toilet requisite for women who care for charm and distinction. Use it for hands and face.

B.C. Goats Shipped East

Livestock Branch Sends Selected Animals To Nova Scotia

Eighteen head of goats have been shipped by the Dominion Livestock branch from British Columbia to Nova Scotia for dairy and breeding purposes.

This is the first shipment of its kind made from the far western to the eastern province. These goats were selected from the best animals in the province and include three purebred Saanen males, twelve grand Toggenburg does and twelve grade Saanen does. The males were sold for \$50 each and the females brought around \$25.

The animals were selected by Arthur Morton of the Dominion Livestock branch. One of the bucks is related to Echo of Deerfield, world's record milk goat, which died recently at Victoria after establishing a record of 4,240 pounds of milk in 365 milking days.

It Has Many Qualities. The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

British Columbia Industries

Province Now Ranks Third In Manufacturing In Canada

In 1927, the year of Confederation, British Columbia was credited with 40 factories. Thirteen of these were saw mills and 11 flour mills, leaving 16 others, all of which were at Victoria. In 1901, British Columbia was fourth among the provinces in manufacturing and now ranks third, with over 725 establishments. "These statistics are therefore particularly interesting," says R. H. Arnott, industrial secretary of the Vancouver Board of Trade, "pointing as they do to the wonderful industrial future lying before Greater Vancouver area, where 60 per cent. of the entire manufacturing enterprises of the province are located."

Was Race Around World — Travelling around the world from east to west, K. Fukuma, Japanese newspaperman, succeeded in defeating a colleague who travelled west to east in a race to be first around the world using only regularly established means of travel, he states in a letter received at Vancouver by J. J. Forster, steamship general passenger agent of the Canadian Pacific Railway.

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

WHAT CAME BEFORE: After many adventures Jimmy and his dog Scottie were forced to land on a lonely island.

There we were on that lonely little island, General Lee, the Chinese War Lord, Chung, his faithful servant, the interpreter, Scottie and myself. Rank and fortune suddenly counted for nothing. We were four hungry men—and a dog. Even General Lee's huge fortune, which we had stored away in our plane, would not buy us a square meal.

The sea stretched away on every side like a flat blue mirror. The island went back four or five miles and ended. Above the sky rose in a huge empty dome. "Look here, General Lee," you said. "I am going rabbit hunting." After that we tramped and hunted for hours, but never found a rabbit. In fact, we never even saw a mole or a squirrel. The island rose to a bald peak near the spot where we had landed. The remainder was covered with stunted brush, burned brown from the sun's heat. The rocks were blazing hot. More serious was the lack of water. The absence of water. Hour after hour we searched for fresh water, but not a drop could we find. As we walked some one of the fall of some animal. It suddenly gripped my arm. As if I had drawn a stick alone. At first I thought this was a joke. Then I suddenly occurred to me that the mark was upon this one of some animal. The sand was wet during the rain of the night before. A lizard or a turtle might have made it, but because the track appeared so queer, I thought it probable that the creature was heading for some known water hole. We followed the track faded after a few hun-

fred yards, but soon another appeared. This time faded out. We continued to follow in the direction this last track had pointed. Some large and dense reeds in front of us. Climbing to the top of these, a very small, green valley appeared below.

Surprise! There we found a deep rocky dell, from which came the distinct tinkling of water. Out from between two rocks poured a clear, cold spring!

General Lee drank so much, I really feared he would drown. Then we filled our water can and walked back to the plane, where Chung and the interpreter anxiously waited for us. Meanwhile Scottie had gone on up the beach, and was busily digging the sand and half growing to himself. The sand flew in all directions. Then he came racing back to me. Sure enough, he had found a host of eggs buried in the sand. His rough methods had ruined some of them, but there were almost a dozen left.

I put the good ones in my helmet and back to the boys I went. The Chinese seemed delighted and set about taking them to the island. Well, perhaps not a very good joke, but to me those eggs seemed terrible. The interpreter looked at me questioningly. "No likes eggs?" he asked. "No, I don't like them," I replied. "Then he pointed meekly to the sea. 'Fishes, he go fish, he go fish, he go fish.' That was an idea. The shores that I had never before had never been touched. I had never seen a thousand years. I had never seen a 'water' fairly seemed to say. 'I'll catch the lives of two of us on the next day.' (To Be Continued.)

NOTE: Any of our young readers writing to "Captain Jimmy" will send him a picture of their own dog. We will receive a signed photo of Captain Jimmy, free.

Real Asset For Farm

Value Of Egg Production In Canada Last Year \$74,897,092

Few Canadians realize the extent to which egg production throughout the Dominion has expanded during the past decade, or the extent to which farm flocks are proving their worth as an important adjunct of the farming industry.

In a statement appearing in a recent issue of the Monthly Bulletin of Agricultural Statistics Canada's flocks for 1926-27, valued at \$74,897,092.

Ontario heads the list in the number of egg-producing hens with a total of over 13,500,000 for 1930; Saskatchewan comes second with 5,200,000; then in order come Quebec with 4,600,000; Alberta with 4,000,000; Manitoba with 3,000,000; British Columbia with 2,200,000; and the three Maritime Provinces with around half a million each.

The number of laying hens on farms increased from 25,705,356 in 1921 to 35,044,870 in 1930. The average production per hen increased during the same period from 78 to 95, nearly 20 per cent.

The average woman has no more honour than a man, and when it comes to clothes she has less on'er.

Text Book Changes

Minor Alterations Have Been Made In Saskatchewan

Changes of only a slight nature have been made in the authorized text-book list for both public and high schools in Saskatchewan, Premier J. T. M. Anderson has announced.

Principal changes noted are the literature selections authorized for grade 11 and grade 12. The chief text book in literature has been retained however.

Constant Vigilance Of British Authorities Is Necessary To Suppress Slave Trade In Africa

Those comfortable people who are wont to accept as gospel the glittering generalities of opportunist orators and who, therefore, believe that all is well with the world apart from depression and failure to agree upon disarmament and war debts, may get something of a jolt if they peruse the reports of the recent annual meeting of the Anti-Slavery Society. They have been accustomed to believe that slavery was abolished in all countries with the exception of Liberia. But no less an authority than Mr. J. A. Sponder tells us that the menace of slavery is ever-present and that nothing but the constant vigilance and the restraining influence of British rule in the Sudan prevent its revival.

Only a year and a half ago there was a round-up throughout the Sudan by the British, which resulted in the rescue of a number of slaves, the capture of some notorious slave-traders and a further grip by the authorities upon the narrowing channels through which these had been operating. But, as Mr. Sponder points out, such round-ups are very expensive, and the Sudan treasury is in no state to stand any strain just now. That in a country as large as Europe slavery should have been virtually wiped out in thirty years is a magnificent tribute to the humanizing and civilizing influences of British rule; but there still remains all over the country a sort of subconscious acceptance of slavery that may not be wholly eliminated for generations. Primitive people are always drifting across the Sudan, and they all have this conception of slavery in their traditions and in their blood.

Even today comparatively few of the Sudanese or the Arabs regard slavery as a crime or an offence, but rather as something the British will not condone and which must, therefore, be concealed or abandoned in toto. Virtually up to the end of 1900 the Sudan had been raided and devastated year after year for long generations by slave-dealers. The British changed that, but if their hands were to be lifted from the Sudan tomorrow, slavery would be in full swing again by the end of the year. It is this knowledge that prompts the British authorities in the Sudan to adhere so strongly to their present policy and to deny interference by stay-at-home politicians whose knowledge of the facts is gleaned from fanatics or from a Cook's tour.

Want Lighter Bales

Popular Demand For Baled Hay That Is Easily Handled

The Seed Branch of the Dominion Department of Agriculture have received complaints from hay dealers that the present practice by Canadian farmers of putting up hay in bales to weigh 150 pounds or more is killing the market for Canadian baled hay. Popular demand today is for a light bale that can be easily handled by the buyer, who in most cases is a carter or truckman, who has to carry the bale on his shoulder to his feed lot. Bales weighing from 110 to 120 pounds will find a much more ready market than heavier bales.

Say It With Advertising
Speaking at a gathering in Montreal L. J. McKenna, member of a well-known florist firm said that advertising was "the lever by which many businesses had been raised to success." He is absolutely right in that statement as to "Say it with advertising" is quite as potent as to "Say it with flowers."

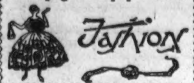

Cop—Hey, there; don't jam up traffic. Why don't you use your noodle?
Sweet Young Thing—I didn't know the car had one.

"And how are your two sons getting on?"
"Fine."
"In spite of the trade depression?"
"Yes, one's an official receiver and the other's a bailiff."—Brunner, Berlin.

Honor Indian Hero

Meshkioh, Ojibway Brave and Indian guide attached to the French River Bungalow Camp, is as modest as he is courageous. It is three years since, with heavy odds against him, he rescued Miss Elfrida Osman and Dr. J. Schwartz, of Chicago, from the eddies of the Blue Rapids on the French River into which they had been flung from an overturned canoe. He told not a word of his exploit which came at last to the notice of the Royal Canadian Mounted Police. Enquiries were set on foot, the facts came to light and the upshot was the presentation to Meshkioh this month at the French River Camp of the bronze medal for bravery of the Royal Humane Society. The presentation was made by the Indian Agent at a gathering of 120 guests of the camp headed by Manager Jack Strathdee, at which the Chiefs of the tribe in full regalia of feather headbands and richly embroidered coats participated. Meshkioh (left, bareheaded), is shown in the photograph with the medal which is being examined by an Ojibway Chief.

Ten Year Plan For China

Would Convert China Into One Of The Great Industrial Powers Of The World

A "ten-year" plan for China, intended to accomplish much of what the Five-Year Plan is accomplishing for Russia, has been worked out by the Ministry of Industry.

The plan is intended to convert China into one of the great industrial powers of the world. The program has been submitted to the government. It embraces 14 points.

The scheme is of unprecedented magnitude and importance. If accepted in the form proposed, and if successfully carried out, the economic position of China will undergo a tremendous change.

The plan is presented by the Ministry of Industries is worked out in great detail. That the scheme is ambitious is admitted; that it will encounter many difficulties is fully realized, but that the government can carry this plan through is confidently believed if it can win and hold the people's confidence.

Ontario Grapes

Growers Market Council To Launch Selling Campaign

Designed to promote sales of Ontario's grape crop, unusually large this year, a comprehensive selling and advertising campaign will be launched, according to Charles W. Bauer, secretary of the Ontario growers market council. "Every basket of grapes shipped outside the province will be subject to government inspection to ensure grade and quality," said Mr. Bauer. Ontario grapes will be available all over Canada, he said.

Water makes up 50 to 90 per cent. of growing plants.

Expect Good Crops Next Year

Conditions Favourable For 1935 Crop In Dried Out Areas

"With favourable moisture conditions it is quite possible that an exceptionally good crop may be grown next year in the districts badly dried out this year," says Dr. L. H. Kirk, who recently inspected parts of the dried out areas of Saskatchewan, in company with Hon. Robert Weir, Federal Minister of Agriculture, and J. G. Taggart, head of Swift Current Experimental Farm.

The general appearance of the dried out districts of the south of Saskatchewan is considerably improved, says Dr. Kirk, as a green carpet of Russian thistle covers the land. This is especially true of the better soil types.

As the land has been free from vegetation during the most of the summer there will be some additional subsoil plant food in the soil which will be an additional advantage to the crop. The Russian thistle will hold any snow well and so give the moisture for germination.

The method for the farmer to follow in most places will be to burn off the Russian thistle in spring and seed the land which can be cheaply prepared by some form of surface cultivation without plowing.

There are limited areas so badly drifted that the thistle has not been established. These are usually the lighter types of soil. A method which will be widely adopted is to seed this land during this month with winter rye in strips across the field. The intervening strips will be seeded next spring with wheat.

France's active and reserve military forces comprise 15.4 per cent. of the population.

In New York State one woman in every four now works for wages.

Quick-Witted Aviator: "Forward, March!"—From The Passing Show, London.

Greece Is Now Canada's Second Best Wheat Customer, With Importations Steadily Increasing

Reindeer Farm At Churchill

Herd Of 1,000 Reindeer To Be Shipped North Next Spring

Negotiations are under way between a northern syndicate and an Alaska reindeer company for a herd of 1,000 reindeer to be delivered at Churchill next spring. The reindeer will be brought by boat to Vancouver and will be shipped across the continent to their new home about two miles north of the new bay port of Churchill. The chief business of the syndicate is expected to come from Europe. Reindeers can be shipped alive by the cool bay route to Churchill much cheaper than cattle, and their meat is at a premium on the continent.

Cheap food is provided on the barren lands, the only cost will be three or four Eskimo herders. The rate of increase of these animals has been among the most profitable stock to raise. The reindeer native to the area around Churchill are inferior to the shipment that will be imported both in hides and sizes. An attempt is being made to get federal aid for the project.

Good Musical Training

Broadens the Mind

Gives Wider Range Of Usefulness To Young People

Don't let the radio drive away all attempt to teach the boys and girls something of the science of music. One evening about the piano with one musical girl playing real music and one young man singing the songs of real composers is worth a year of radio stuff in education and refinement. If our schools could confine themselves to reading, learning the fundamental rules of arithmetic, spelling and music, our children would be brighter, our churches full of song, our society more substantial and more true. Good training in music means a broadening of the mind. It gives to the fortunate scholar a wider range of usefulness. Even the oriole teaches its children how to sing.

Making More Butter

Butter Exports Continue To Show a Decided Increase

As the current year progresses the market report of the Dominion Dairy and Cold Storage Branch makes it increasingly apparent that butter fat is being sent to market in the form of butter to a greater extent this year than for some time past. Receipts at Montreal for butter up to August 1st of this year, were 389,371 packages as compared with 242,963 packages the preceding year. Cheese receipts totalled 388,373 boxes for the same period as compared with 452,934 boxes for the preceding year. Butter exports continue to show a decided increase, the total to August 1, 1931, being 76,658 as compared with 2,501 last year for the same period.

For Tourist Traffic

Link Up Highway To Connect Western National Parks

An effort to secure tourist traffic on trips around national parks in western Canada, via Riding Mountain Park in Manitoba to Prince Albert National Park in Saskatchewan; then to Jasper National Park in Alberta, down to Banff, Waterton Lakes, Yellowstone and Glacier, will be made by the Federal Government. According to Hon. Thos. Murphy, all that was necessary before launching such an appeal was to complete a few links in all-weather highways.

Cramped His Style

A temperance organization in Kansas succeeded in getting a bootlegger in jail. The prisoner berated the leader of the organization for ingratitude. "You folks busted up the greatest temperance movement in this country for years," he said. "I was selling them fellows whiskey that was diluted as high as 75 per cent. and if you had left me alone another month, I'd a had 'em drinking pure water."

Sergeant, posting sentry and after giving him instruction—"Now, don't forget, if anything moves you shoot."
Sentry—"Yes, and if anything shoots I move."

Beekeepers regard Italian bees as superior to the black German bees, because the Italian bees are better workers, swarm less, and are more gentle.

A woman never knows what a man thinks of her, although she thinks she does.

Greece today is Canada's second best wheat customer with importations to that country continually on the increase, according to Henri Turcot, Canadian Government Trade Commissioner to Greece and Turkey, Canada's best wheat customer is Great Britain.

In 1926 Mr. Turcot was an instructor of languages at the provincial normal school in Saskatoon, and was assistant trade commissioner in Paris and Milan before going to Athens. He is at present touring the Dominion to gain first hand information on business conditions, and will return to Greece in November.

In an interview Mr. Turcot gave an outline of the conditions that exist in Greece and the opportunity for trade with Canada which is present. The trade commission office in Athens has been opened only for two years.

"The general crisis has unquestionably reacted unfavourably on Greek economy and brought about a depression in commercial and other pursuits," said Mr. Turcot. "But the depression can also be traced to a shortage of crops and to low prices obtainable for the staples of Greek export trade. However, it cannot be said that an actual crisis took place in Greece during 1930, nor that one is taking place this year."

"Taking into account the fall in prices, it is evident that the figures relating to the volume of Canadian exports to Greece showed a decided progress."

"This progress is attributable to our wheat having been shipped to the Greek market in a quantity never attained previously. Shipments of Canadian wheat to Greece represented, in 1930, a volume of 8,000,000 bushels, or over one-half of Greece's requirements of foreign wheat, against 7,000,000 bushels in 1929. Larger sales are reported this year."

"The other Canadian products sold in the Greek market comprised tinned mackerel, tinned lobster, tinned salmon, dried and smoked fish, flour, tomato sauce, whisky, agricultural implements and machinery, storage batteries, wood pulp for artificial silk, wallpaper and jute bags."

"To complete the picture of Canadian trade with Greece, I shall add that in 1930, our imports amounted to \$16,000 against \$25,000 in 1929, the balance of trade being therefore, highly favourable in Canada."

To Hurry Relief Measures

Credit Of Province Of Saskatchewan

To enable the various projects to be started as soon as possible, the credit of the province of Saskatchewan will be placed behind the whole relief programme, Hon. Howard McConnel stated recently.

This will prevent any undue delay in the commencement of the relief projects and provision will be made later for having whatever amounts are expended received by the Federal Government, he said.

The residents of the province in need of aid enabled to benefit, immediately, pending further negotiations with Ottawa concerning the distribution of relief costs.

Rights Or Duties

Perhaps one of the most potent causes of the present discontent is the tendency to lay stress on rights rather than duties. Yet the real progress of humanity probably depends far more on the conception of duty than on the conception of rights.

A case of a man who gave some of his blood to save his child, and at the same time unknowingly transmitted malaria to the child, has been reported.

One-tenth of the harvested hay crop in the United States is lost each year from spontaneous combustion.

"Mary, I could write my name in the dust on this table."
Mary: "What a benefit education has, Ma'am."—Montique, Chateaufort.

Polite Hobo: "Your little dawg 'as bit me, lady."
Lady: "Where?"
Hobo: "I really couldn't tell yer where, ma'am."
Lady: "Nonsense. He couldn't reach that height."—The London Opinion.

WORLD HAPPENINGS BRIEFLY TOLD

John Tamar, who served as a farm hand on a farm near Debrecin, Hungary, for 101 years, died at the age of 112.

Thomas A. Edison, noted scientist, is on his way to complete recovery from his recent illness. Dr. Hubert S. Howe, his physician has announced.

Estimated cost of providing relief work to Vancouver's unemployed men with dependents, of which the city must bear an undetermined portion, will be about \$450,000 a month.

Excavations on the site of the new Royal Bank of Canada in London, England, have resulted in the discovery of an 1,800-year-old jigsaw puzzle in a Roman pavement.

In the two weeks from August 1 to August 15, 114,000 workers lost their jobs in Germany, bringing the country's total of unemployed to 4,104,000.

Approximately 10,000 head of cattle have been shipped from Canada to the United Kingdom so far this season, according to information in the office of the Hon. Robert Weir, Minister of Agriculture.

Total grain shipments from Vancouver for the crop year ending July 31 were 75,354,053 bushels, an increase of 25,480,745 bushels over the figure of 49,873,308 bushels shipped in the previous crop year.

During the months of May, June and July, the fog horns sounded a few minutes over 772 hours, a period, had it been continuous, of over thirty full days, stated the keeper of the Yarmouth light and fog alarm at Cape Forchu, Nova Scotia.

A reduction of two per cent. in the Canadian birth rate in the first seven months of the year is shown by a preliminary report of the Dominion Bureau of Statistics. The total to the end of July was 50,851 births, as compared with 52,057 in the corresponding period of last year.

Prosperity Plan

Five Year Memorandum on War Debts Proposed

A five-year world prosperity plan was outlined to delegates from 20 countries attending the world social-economic congress at Amsterdam, by Dr. Louis L. Lorwin, of the Brookings Institution, Washington, D.C.

He told 300 economists, industrialists, labour leaders and government officials that a general five-year moratorium on all war debts and reparations payments was the first necessary step to give the world a breathing spell from what he termed its most aggravating and dangerous post-war problem.

News Fails To Break

An editor apologized to his readers after this fashion: "We expected a marriage and a death to publish this week, but a violent storm prevented the wedding, and the doctor having taken sick the patient recovered and we are accordingly cheated out of both."

"Do you belong to the town?"
"No."
"Then we're neighbours. I don't come from it either."—Lustige Kolner Zeitung, Cologne.

W. N. U. 1905

To Combat Drought Causes

Saskatchewan Seeks Means For Assisting Dried-Out Areas

The Saskatchewan Government has appointed a voluntary commission of inquiry, headed by Hon. J. D. Bryant, K.C., Minister of Public Works, to investigate all contributory causes of drought, in the southern portion of the province and to suggest plans for combating such causes. This Commission, described as a "Committee on Conservation and Afforestation," has already taken steps to assemble all pertinent data from the municipalities situated in the drought areas of the province, and, as part of its assigned duties is to recommend sites for dams for the conservation of water in the creeks and rivers of the south. The Government proposes to seek Federal aid in the erection of dams at the sites suggested. Personnel of the Commission: Hon. J. F. Bryant, K.C., chairman; Hon. W. C. Buckle, Minister of Agriculture; W. D. Cowan, M.P. for Long Lake; Dean MacKenzie, University of Saskatchewan; T. A. Patrick, M.P., and Lieut.-Col. F. J. O'Leary, Regina.

A complete revision of the investigation which the Commission will follow is given in the following statement made by the chairman, Hon. Mr. Bryant:

"The commission on conservation and afforestation intends getting down to business as soon as possible, and in the meantime in order to assemble data, as chairman of the commission, I am today sending out to the secretary of each municipality in the dried-out areas of the province a questionnaire asking that the council of the municipality co-operate with the commission in supplying the following information as carefully prepared as possible:

1. Name of municipality.
2. Number of farms. Number of abandoned farms. If any.
3. Has there been soil drifting in your municipality, and, if so, to what extent?
4. Number of groves of trees in the municipality.
5. Approximate acreage in trees in the municipality.
6. Number of farms with shelter belts.
7. Number of farms raising fruit trees, and with what results.
8. Number of farmers having dugouts on their property and whether or not there is any water in them this year. Have they been dry at any time.
9. Number of wells that have gone dry, if any, in the municipality.
10. Number of acres owned by the municipality as a result of tax forefeitures.
11. Is said land suitable for agricultural purposes. If not would it lend itself to afforestation?
12. The kind of trees most commonly found in the municipality.
13. Are there any lakes, sloughs or large bodies of water in the municipality, and, if so, give the approximate acreage of water surface.
14. Please specify any points in the municipality where by the construction of a small dam as a relief measure water could be advantageously conserved.

"In making application to Ottawa for relief money, the Government is suggesting that a portion of these moneys be set aside for the construction of dams as a relief measure, and therefore any suggestions as to possible sites for dams will be welcomed, and checked over by the engineers so that such action as might be deemed advisable could be taken in the case of the most desirable site mentioned."

"In the interests of a moisture survey of the dried-out and semi-dried-out areas, steps are being taken to assemble all the data as to the rainfall in these districts since the commencement of the meteorological records by the Federal Government and by the Department of Agriculture in Saskatchewan. An effort will be made to ascertain whether or not present conditions are due entirely to an act of providence or whether it has been brought about in part by human activities such as cutting down the trees which ordinarily afford a wind break and the draining of water areas and sloughs during the hours' sleep each night, and the picture shows him, very tired, but happy, as Hon. Mr. and Mrs. Victor Bruce in the rear listen to his thrilling tale.

areas are veritable rivers, in the summer they are practically dry.

"The commission will endeavour to ascertain whether or not by impounding this water, and by damming the north Saskatchewan, the south Saskatchewan, Foxchase Creek, Wood River, Notakew Creek, Swift Current Creek, Wascana Creek, Souris River, Moose Jaw Creek, Pipestone Creek and others, to form a series of lakes of considerable area, if this would effect in preventing drought conditions.

"At the same time it would be desirable if each farmer in the dried-out areas would select a natural basin on his land to which to make surface drains, and make a dug-out; such dug-out not to be too wide because the water would evaporate with a wide surface, but to be made long and deep, and if later on trees were planted around the dug-out, the trees would catch and hold the snow and eventually the dug-out would furnish a permanent supply of water for the farmer and his stock. This would help very materially if there was a dug-out built during the slack times on every farm in the dried-out areas."

"The Province of Nebraska reached the State of Nebraska there was not enough wood to supply the wagon wheels. Nebraska was the largest body of treeless land in the United States and was described on the map as the great American desert. For 50 years Nebraska has carried on a tree-planting policy. Today there are 2,000,000 trees in that state and as a result the annual rainfall has increased to make an area of the state and the western part of the state which formerly cultivated nothing at all is now one of the heaviest producers of sugar beets in the country."

"Such measures would, of course, be costly, but when we consider that drought can cost the Province of Saskatchewan a loss of about \$200,000,000 in a single year, we feel that it is possible to increase the rainfall in a sound and economical solution of the problem."

"When the Saskatchewan we get around \$2,000,000 from our wooded areas under present conditions annually. In last year when neighbouring states were dried-out, Nebraska produced a crop worth \$800,000,000. Such measures would, of course, be costly, but when we consider that drought can cost the Province of Saskatchewan a loss of about \$200,000,000 in a single year, we feel that it is possible to increase the rainfall in a sound and economical solution of the problem."

"The Minister of Public Works, in conclusion, stated that he was anxious that all farmers in the dried-out areas should communicate once with the secretary-treasurer of their municipality, giving information as to the number of acres in trees on their land; the fruit orchards; if any, and their success in connection therewith; the number of acres of water on their land; whether there is a dug-out on their land or not. Further, if the drought has gone dry they are requested to report same to the secretary of the municipality."

Montreal Grain Deliveries

Grain deliveries from the Port of Montreal for the season to date topped the fifty million mark on August 4th, the amount shipped being 50,083,967 bushels. This figure compares with 40,260,982 bushels in the corresponding period of last year. Grain receipts at the port had reached the fifty million bushel mark several days earlier.

A filament for a new type of electric lamp is one-fifth the thickness of a hair.

HOW HE FLEW FROM "DOWN UNDER"

The picture above was taken in a London, England, hotel when J. T. Mollison, the young Glasgow aviator, who broke the world's record for the solo flight from Australia to England by eight days, told the reporters how he did it. In order to cover the 15,000 miles in two days he only had two hours' sleep each night, and the picture shows him, very tired, but happy, as Hon. Mr. and Mrs. Victor Bruce in the rear listen to his thrilling tale.

SUNDAY SCHOOL LESSON

SEPTEMBER 6

TURNING TO THE GENTILES

Golden Text: "I have set thee for a light of the Gentiles, that thou shouldst be for salvation unto the uttermost part of the earth."—Acts 13:47.

Lesson: Acts 13:13-52; Romans 1:14-16; 11:1-24.

Devotional Reading: Psalm 72:6-13.

Explanations and Comments

The Result Of Paul's First Sermon in the Synagogue At Pisidian Antioch, Acts 13:42-44.—After Paul's sermon, he and Barnabas withdrew from the synagogue, while the congregation remained for the end of the service and the formal dismissal. As they left they were urged to speak again the following Sabbath. When the synagogue services were over, many Jews and proselytes (Gentile converts to Judaism), from Pisidian Antioch and Iconium, came to hear Paul and Barnabas. Paul urged them to continue in the grace of God, and to be diligent to hold on to the Acts of the phrase, "The Grace of God," i.e., redemption from sin free of charge. The wide-spread expression of the spontaneity and generosity of God's love; God freely grants His pardon to all who turn to Him in Christ.

The Jealousy and Antagonism Of The Jews Aroused, Acts 13:44, 45.—The next Sabbath, the Jews of the city were gathered together to hear the word of God on the next Sabbath. Paul and Barnabas were used in verse 42 for "the next Sabbath" from that in verse 44, and some of the Jews were in verse 42 "during the intervening week."

The Jewish congregations had a portion of the Sabbath day set aside for the Sabbath on the Sabbath but on Monday and on Thursday mornings, that they should be diligent to hold on to the hearing Scripture. The peculiar expression may apply to the meetings of the Jews on these days.

The preaching of Paul during the week created a tremendous interest. When the Jews saw the multitude they were filled with jealousy. Their antagonism was due primarily, not to opposition to Paul's words, but to envy of his success. It was not loyalty to sacred truth which led the Jews to contradict Paul and to blaspheme.

Turning To The Gentiles, Acts 13:46.—Paul and Barnabas would not hear them, Paul and Barnabas spoke out boldly and said, "It is necessary that the word of God should first be spoken to you. Seeing you turn from the word, and judge yourselves unworthy of eternal life, we turn to the Gentiles." This was a tremendous apology for the Gentile Mission, which occurs frequently in the following narrative and appears in the Acts of the Apostles.

Notice the well-guarded balance between God's sovereign purpose for His redemption of the world and His own life: "It was necessary," but "I thrust it from you, and judge yourselves unworthy." The revelation of Divine Grace in the gift of Jesus Christ, the token of eternal life in His redemption from the debt of the offer of spiritual freedom, of pardon, peace and joy—all were thrust from them. Paul and Barnabas because these things were to be a common heritage. Acts 13:50-52.

The hostile Jews now had recourse to "the women of honorable estate, and the chief men of the city," the Roman colonists, the local aristocracy. They were the high privileged class and held the reins of government. These Jews joined in a plot with the Jews in persecuting Paul and Barnabas till they were driven from the city.

Paul and Barnabas shook off the dust of their feet against them. This was not a childish act nor a sign of contempt or ill-will, but was symbolic action implying that those to whom they refused to go their own way. If they will not accept heaven, let them retain earth and its dust."

Recall the words of Jesus in Luke 9:5: "And as many as receive you not, when ye depart from that city shake off the dust from your feet for a testimony against them."

The Universal Gospel, Romans 1:14, 16.—"I am a debtor," wrote Paul to the Romans, "both to Greeks and to barbarians, both to the wise and to the foolish." The gospel belongs to all mankind; those who have it are by that fact constituted debtors to all who have it not. Paul felt a peculiar call and obligation to Greek and barbarian, Christ sent him to the Gentiles.

On every Christian this debtorship rests until every man has been given the gospel.

Lost Of It Used

Several drummers were seated in the smoking compartment of the train. They were bemoaning the generally demoralized conditions of business, as they found it. Finally they turned to the quiet little man in the corner.

"And how do you find things, brother?"

"Never better since I've been on the road."

"For the love of Pete and what's your line may we ask?"

"Selling red ink."

Distant ancestors of the horse, that lived in early geologic times, were no bigger than small dogs.

More than 100,000 linespeers were imported into British Malaya last year.

Cannibals In Australia

Black Men Of North Western Section Eat Human Flesh

"Cannibalism still is rife among the nomadic black men of north-western Australia, according to a report on the Cuias and Cuias tribes just issued by the Catholic Anthropological Conference.

The report is from the Rev. E. Alcides, missionary among them since 1908.

"They are expert butchers," he says. "The heart goes to the strongest and is the first part of the body to be disposed of. Next the shoulders, arms and trunk are given to the men, while the legs go to the women. All this is systematically carried out. The flesh of the white man is looked upon as a dainty morsel."

"These aborigines are nomads without fixed home. They have neither houses nor furniture and possess little beyond their spears, boomerangs, and battle axes which they always have about them. They wear no clothing except when they come to the mission. As soon as they get out of sight all clothes are cast off. The women are the slaves of the men and, when necessary, are the beasts of burden. Murder is the greater article of all disputes."

Egg Market Prospect

Many Producers Are Renewing Their Faith In The Egg Market

The current issue of the Egg and Poultry Market Review, published by the Department of Agriculture at Ottawa, after calling attention to the definite turn for the better which is now apparent in the egg market throughout the Dominion, makes the following observation with respect to the present situation:

"Since early in the spring this publication has consistently pointed out the probabilities of the situation which appear now to be developing. A reduction in flocks, such as has taken place in many sections, was advised against. During recent weeks there has been an active demand for pullets, indicating that many producers are renewing faith in the egg market and are anxious to enlarge their flocks over the proportions planned for earlier in the spring."

Sacrificed Life To Science

Wilfred Douchette Dies Of Fever He Aided While Doctors To Master

Wilfred Douchette, who risked his life in the cause of medical science by permitting himself to be inoculated with trench fever germs in France during the World War, died of a fever last week in New Haven, Conn., after lingering for years suffering from the fever. He lived for a year in a French hospital, segregated from companions and returned after the armistice broken in health. He had been a hopeless invalid ever since then.

Mr. Douchette resided with a brother, although he had been in hospitals most of the time since the war. He was buried with military honors.

A Television Broadcast

Moving Picture Shown In Department Store At Montreal

A small gathering at Montreal saw what was probably the first broadcast of a moving picture by television in Canada. The picture was sent out on the fourth floor of a local department store and presented on a receiving set on the fifth floor.

Through an instrument that looked like a phonograph horn with a small mouth, behind which was a large revolving perforated disc and a special neon tube, a glimpse was caught of a tiny albino mouse moving picture in black and white relating the adventures of "Fat Fanny Falling Fast and Furious."

He—"Oh, you mustn't blame me for my ancestors."

She—"I don't. I blame them for you."

Chemists have developed five methods of making artificial silk.

The Dragon
"You might have brought the boy out of the water dry and, where's his cap?"—Hummel, Hamburg.

SALES AGENCY IS CREATED BY ALBERTA POOL

Calgary, Alberta.—The establishment of a provincial selling agency, which would operate a seat on the Winnipeg Grain Exchange for selling and hedging purposes, was announced officially by the Alberta Wheat Pool Thursday, August 27. The agency will handle sales of the 1931 Alberta crop and is now in operation.

R. D. Purdy, general manager of the Alberta Wheat Pool, will head the selling department which will operate independently of the Central agency which in the past has had charge of disposition of all prairie grain. The Central selling agency will continue to operate under John I. McFarland until the 1930 crop is sold entirely.

The alteration of the Alberta system, said Mr. Purdy, will not affect any arrangements announced by provincial and Federal Governments, and the selling agency will be a department of the Alberta Wheat Pool. Farmers could still sell their wheat at the pool elevators and receive the open market price or they could accept the initial pool payment of 35 cents a bushel and receive additional payments later. The five-cent per bushel bonus allowed by the Federal Government as a relief measure for farmers would be payable on delivery, whether the farmer sold on pool basis or took the open market price.

All grain received by the Alberta selling department would be disposed through regular market channels, he said.

Junkers Freight Plane

Big Plane Will Be Used For Freight

Montreal, Que.—Destined to carry freight cargoes in western Canada, a huge all-metal Junkers freight plane has been purchased by Canadian Airways and will be shipped to the northwest within a few months, it was announced here.

The new Junkers JU-52, a development of the trans-Atlantic plane "Fremont," will be the largest freight plane in Canada. Fully loaded, it weighs four tons, and the single E.M.W. 685 horsepower engine allows a cruising speed of 99 miles an hour, and a range of nearly 1,000 miles, which, by special tanks, can be increased to 1,800 miles. The big plane can be landed at about 47 miles an hour.

Ban Use Of Benzol

Toronto, Ont.—Use of benzol in Ontario factories has been prohibited in an order issued by Hon. Dr. J. D. Monteith, Provincial Minister of Public Works and Labour. This use of benzol has been prohibited because it is injurious to the health of individuals. That fact has been demonstrated on the evidence of chemists who have investigated, and the labour department has prohibited the use of benzol," said Dr. Monteith.

May Withdraw Grants

Toronto, Ont.—Fall Fair Associations in Ontario may have to dispense with the usual government grants in 1932, according to a warning issued by Hon. T. L. Kennedy, Provincial Minister of Agriculture. The associations were warned that they must discontinue the practice of looking to the Provincial Government for financial assistance. This year the usual grants, estimated between \$80,000 and \$100,000, will be maintained.

Cattle Prices May Be Lower

Ottawa, Ont.—Reporting on conditions now prevailing in cattle markets in the Old Country, the Canadian agricultural products representatives in Great Britain in a cable to the livestock commissioner here says: "Cattle markets weaker. Our best hope is strict selection for type and quality if all weights. Lower prices likely."

May Open Canadian Branches

Montreal, Que.—Six large industrial firms of the British Isles are seriously considering the establishment of branch factories in the Dominion during the coming year, F. W. Field, His Majesty's Trade Commissioner, told members of a service club, during an address on the industrial situation in Great Britain.

Celebrates Birthday

Ottawa, Ont.—Hon. G. D. Robertson, Minister of Labour, was 57 years old August 28. From the start of the department Senator Robertson received a magnificent bouquet of roses, while numerous messages of congratulation came from friends and colleagues. The minister was born in Welland, Ont., on August 26, 1874.

Will Attend Conference

Mahatma Gandhi Leaves For London

Simla, India.—After months of indecision and "heart-searching," Mahatma Gandhi has announced his "inner voice" has told him it would be to India's interest for him to go to London to attend the second round table conference.

At the end of almost three hours' conversation with Viceroy Earl Willingdon, who left a sick bed to see him, the Mahatma agreed to co-operate with the round table conference.

His decision was based on an attitude of "mutual accommodation and compromise." The Nationalist leader agreed to drop his demand for the appointment of an arbitration board to determine whether there have been breaches of the Delhi armistice and the viceroy consented to institute an inquiry into the alleged excesses of tax collectors in the Bardoli district.

Thus, after nearly 20 years' absence from England, Gandhi will set sail for London with Pandit Madan Mohan Malaviya and Mme. Sarojinidass, also delegates, and will reach his destination September 9. He will take aboard his goats to provide him with milk.

Defends Position

Hon. J. H. Thomas Says Nation's Interest Is Above Party

London, England.—In a letter to the executive committee of the Labor Party of Derby, the borough which he represents in parliament, Mr. Hon. J. H. Thomas defended himself for following Prime Minister MacDonald and joining the national government.

"I know my action will be misunderstood by many," he said in the letter, "I know full well I should be subjected to criticism and abuse, but I also knew the nation's interest, which is greater than that of any individual or party, was at stake."

Mr. Thomas explained he had abandoned no policy and sacrificed none of his principles. "My only policy," he said, "has been to face boldly the grave emergency in the nation's affairs, and I have decided to remain in the new government only as long as the crisis lasts, and until stability is assured."

He added that in the elections which were inevitable, he would "accept the verdict as a consequence of my own action."

Good Crops At The Pas

Areaage Is Limited But Yield Reported Remarkably High

The Pas, Man.—Fully two weeks behind some sections of the southern part of the west, cutting operations started last week on wheat and other fields here. While there is only a limited acreage in this part of the country the yield has been remarkably high according to farmers in this district.

Cuts have run as high as 50 bushels, while wheat has averaged 30 and 35 bushels. This is the fifth consecutive year that grain yields have been good in this area, and considerable interest is being taken in the possibility of throwing open the Carrot River Valley to settlers. This triangle of rich river silt has produced sensational yields for years, but as yet, only squatters are working the land, as it is not open to homesteaders. The local Board of Trade has received enquiries from farmers in the southern part of Saskatchewan regarding the possibility of establishing mixed farming in that area.

Wheat Bonus

Winnipeg, Man.—Farmers are assured of the five-cent bonus on wheat pending arrangements now being made by the Board of Grain Commissioners. E. B. Ramsay, chairman of the board, stated here recently, Mr. Ramsay's attention had been drawn to a suggestion that farmers who have threshed wheat are withholding it from the market because the possibility of the distribution of the bonus had not yet been perfected.

Printing Plants Wrecked

Montreal, Que.—Hopelessly ruined by sabotage of the printing press and the firing of the plant, the weekly newspapers Le Morior, Le Chameau and Le Goglu will disappear from Montreal journalism. Joseph Menard, joint owner with Adrien Arcand, told the fire commissioner's court here at a hearing to probe circumstances surrounding the wrecking of the printing plant.

Had Stormy Trip

Southampton, England.—Owing to a violent storm in the English Channel, the Canadian Pacific liner "Empress of Britain," was unable to call at Cherbourg. When the liner docked at Southampton, Captain Latta said he had fought bad weather all the way across the Atlantic.

Historic Sites

Caltra Erected To Mark Landing Of General Wolfe

Sydney, N.S.—"To the honored dead of two nations."

This brief tribute, dropped by a squadron of Royal Canadian Air Force "Planes," soaring high overhead, epitomized the spirit and thoughts of over 1,300 people gathered on the rocky bluff overlooking Kemmington Cove to witness the unveiling by Hon. Frank Stanfield, Lieutenant-Governor of Nova Scotia, of the beautiful memorial cairn erected by the Historic Sites and Monuments Board of Canada, to mark permanently the site of Wolfe's landing on June 8, 1758, six weeks prior to the fall of Louisbourg. Lieutenant Governor Stanfield pulled the cord unveiling the cairn which now permanently marks the site of Wolfe's hazardous undertaking.

Raise In Gasoline Prices

United Protest From Western Provinces Is Urged

Calgary, Alberta.—Efforts to bring a united protest from all western provinces against increase in gasoline prices were instituted here by directors of the Alberta Motor Association.

The recent advance of one and one-half cents a gallon in the gasoline price was scored by the Alberta directors as unwarranted. Copies of the resolution embodying the criticism are being sent to all motor associations in Manitoba, Saskatchewan and British Columbia, urging similar action to be taken.

RELIEF PLANS WILL EMBRACE PUBLIC WORKS

Ottawa, Ont.—Canada's Government is carefully considering a scheme to bring water from the Saskatchewan River to Moose Jaw and Regina, in southern Saskatchewan, according to a statement by Hon. G. D. Robertson, Minister of Labour.

Acting on a message from Hon. Robert Weir, Minister of Agriculture, now in the west, Senator Robertson has recommended to the Department of Public Works that a government engineer be sent to Saskatchewan to examine the possibilities of the proposal. Such a project, the Minister of Labour said, would no doubt operate to create wide employment facilities in that area.

A tentative agreement has been reached with the province of New Brunswick in the matter of unemployment relief, Senator Robertson said.

Details of the arrangement would, however, not be made public until Premier R. B. Bennett returns from western Canada and the recommendations are approved by the governor-in-council.

Conferences were proceeding between the minister and representatives of Manitoba.

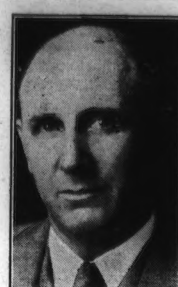

It is expected that after discussing individual requests of the provinces the entire programme will be submitted to the governor-in-council within a few days.

CLUE TO NUNGESSOR'S FATE

John Gaucher (left) and L. V. Allers are shown reading the note they found in a cognac bottle off Fire Island. The note, reproduced below, is believed to be from C. M. Nungesser and Major Francis Colli, the intrepid French fliers, who took off from Paris on May 8, 1927, on a non-stop flight to New York. They were never heard of again. Translated from the French the note reads: "Sinking at this moment in Labrador." It bears a signature believed to be "them."

KEEPER OF PURSE

J. A. McLassie, Dominion Honorary Treasurer of the Canadian Legion of the British Empire Service League, who is busy preparing for the gigantic conference to be held in Toronto this week.

Trans-Canada Highway

Locations Of Final Sections Of Road In Ontario Announced

Toronto, Ont.—Designation of final sections of the trans-Canada Highway in Ontario was announced by Premier Geo. S. Henry following approval by the cabinet. This is the first step in commencing work for use planned by the government at work camps in the north in conjunction with Federal Government grants.

Two sections are designated in the plan. The first section extends from Pembroke on the east, to Mattawa and hence westerly to North Bay. The second section commences at the town of Schreiber, Thunder Bay district, and goes west to the Manitoba boundary, following the north shore of Lake Superior to the village of Nipigon, thence to Port Arthur and Port William, proceeding through Upsala, Dryden and Kenora.

Preparing To Send Goods To Australia

Good-Will Ship To Leave Montreal Late In October

Toronto, Ont.—Preparations for the despatch to Australia of a good-will ship, laden with Canadian goods for export to the Commonwealth, are under way, according to a statement issued by J. E. Walsh, general manager of the Canadian Manufacturers' Association.

The vessel, "The Canadian Constructor," of the Canadian National Steamship Lines, will leave Montreal October 25, bound for Australian ports. A similar trip by the same ship from Australia to Canada will precede the trip for which arrangements are now under way.

Joins Up With Gandhi

Ahmadabad, India.—Forewearing the pleasured of the world, Miss Nilla Cran Cook, 21-year-old daughter of the late George Cran Cook, United States poet and playwright, has joined Mahatma's Gandhi's movement for the liberation of India. She is the first United States National to be admitted to his monastic colony, conducted on the banks of the Sacred Sharmati River.

Destructive Wind Storm

Man Killed and Others Injured When Tornado Strikes Southern Saskatchewan

Estevan, Sask.—One man was killed, two others injured and heavy damage done when a tornado swept through Estevan and surrounding districts.

While assisting workmen to pin down a tent during the height of the storm at a construction camp about two miles west of here, Robert Mitchell Henderson, 50, Calgary, partner in the bridge contracting firm of Mannix and Henderson, was killed instantly when struck by a flying timber. The missile hit him in the head, fracturing his skull. It has been decided that an inquest is unnecessary.

Louis Conerey, of Estevan and Dalton McKay, of Saskatoon, laborers with the construction gang, suffered bruises and shock when struck by flying timber and were brought to Estevan hospital for treatment.

The terrific gale sent box cars crashing into the road house at the Traux-Traxer Coal Company Plant, while the roof of the grandstand at the exhibition grounds was ripped entirely off and several barns were blown down. The trestle bridge on the Neptune branch of the C.P.R., five miles from town, was splintered by the wind. A garage was blown down in Estevan and the roof of the D. L. Irvine residence was torn off.

Market For Butter

Canadian Dairy Produce Is In Demand In Great Britain

Montreal, Que.—Dairy produce from Canada is very much in demand among British buyers and consumers, and the British market can absorb all Canadian dairy farmers can send, Dr. J. A. Ruddick, Canada's veteran dairy commissioner stated here on his arrival from England.

"The prospects for butter especially are very good," said Dr. Ruddick. "Canadian cheese is also very popular and tops the market in its class."

SINGLE PURPOSE IS TO RESTORE BRITISH CREDIT

London, England.—The new national government has already got down to its job of laying a firm foundation for British credit. Its opening meeting revealed complete unanimity in its task. It appointed the necessary small committees and proposed to go ahead as speedily as possible with the preparation necessary for new legislation.

The method of legislation, it is authoritatively intimated, will be such as to make it effective for immediate operation. It is stated, although not officially confirmed, that in effecting economies, the national government will seek parliamentary authority to proceed by order-in-council.

The government's scheme for balancing the budget and the restoration of British credit will have the double feature of reductions in expenditure and increases in taxation. The plan is to make the entire scheme a complete unity, and a characteristic of that unity will be the equal sacrifice according to position of various classes of taxpayers. In government circles statements that the burden of the new scheme will fall chiefly on those "above the line" are described as absolutely untrue.

All controversial legislation now before parliament will be suspended. The new government proposes to concentrate on the supreme task of restoring credit, and in that task, it is stated in government circles, there can be no faltering.

Both Conservative and Liberal members of the new administration believe they will have behind them the virtually unanimous support of their parties. Rt. Hon. David Lloyd George and Lord Grey alike, it is understood, have signified their entire agreement with the Liberals in their acceptance of office.

Yet while an overwhelming majority of Conservatives and Liberals are backing the new government, Laborites are forming up behind the "rebels." After several hours' deliberation the general council of the Trades Union Congress, the national executive of the labor party and the consulting committee of the Parliamentary Labor Party unanimously decided that the new government should be vigorously opposed in parliament and by the labor movement throughout the country. They expressed their approval of the action taken by certain ministers of the late government in declining to tender their support to the new administration, and recommended that the Parliamentary Labor Party constitute itself the official parliamentary opposition.

ARRANGE LOAN TO STABILIZE POUND STERLING

New York.—A private banking credit, believed to be the largest in financial history, is being marshalled in New York and Paris, Wall Street learned, as an invincible bulwark for the British pound sterling.

Both New York and Paris bankers, it was said in highest Wall Street banking circles, propose to make the credit so large that there can be no further question as to the stability of the pound, which is so widely used as the common medium of international exchange.

While bankers were not prepared as yet to reveal the exact size of the loan, it is believed that it will be between \$300,000,000 and \$500,000,000, provided in equal portions by New York and Paris bankers. It is known that each portion is expected to be larger than the \$100,000,000 credit granted to the British Government in 1925 by a syndicate headed by J. P. Morgan & Co.

It was formally stated at the Emphatic office that discussions are under way, both here and in Paris, with reference to the credit, and decided progress has been made.

It was acknowledged in well informed quarters that the readiness of the United States and French bankers to extend the credit in large measure depended upon assurances from the British Government that the program of governmental economies to which the new cabinet is committed, be adopted.

It was explained, however, that the bankers were concerned merely with fundamental principles of sound finance, and were not concerned with specific details of the program. The British cabinet may see fit to adopt recent changes in British law which the United States bankers have brought pressure to bear for a reduction of the debt have been.

In some of Wall Street's highest banking circles, the return of stability to British finances is regarded as vital to world economic recovery, and the economy programme of the new coalition government, together with the bolstering of it by a large international loan, are regarded as major steps toward lifting the world from the mire of depression.

'Plane Plunges Into Sea

Twelve Persons Rescued By Timely Arrival Of Fishing Craft

Gloucester, Mass.—Twelve persons were rescued from the fog-enshrouded waters off Gloucester after a Pan-American Airways amphibian plane, bound from Halifax to Boston, plunged into the sea just before the eyes of one passenger, Edward Banwell, 70, of Halifax, was missing. The fishing schooner, "Nova Julia," feeling its way into this port, came upon the nine passengers and three members of the crew as they clung desperately to a storm-tossed rubber boat, the only part of the huge ship to stay afloat.

W. L. Elmore, of Boston, the pilot of the plane dove suddenly after the boat below the surface before he was able to release the rubber boat, while the eleven others, including three women, managed to keep from sinking.

Members of the rescued party said the "plane dove suddenly after" the boat. One of the crew as they clung to the boat, while the eleven others, including three women, managed to keep from sinking.

Hampered by clothing and with darkness gradually approaching, the survivors were about to give up hope when the "Nova Julia" here alongside and pulled them to safety.

Canadians In Civil Service

Ottawa.—Approximately 95 per cent. of civil servants are of Canadian birth, H. H. Rowatt, Deputy Minister of Interior has stated, and accordingly in the reduction in staff in that department a greater proportion of those dismissed were Canadians. A complaint was voiced at the convention of the Native Sons of Canada, that twice as many Canadians had been dismissed as those born in other countries, due to transference of natural resources to the western provinces.

Will Deport Canadians

Windsor, Ont.—A number of Canadian citizens from widely separated parts of the Dominion have run afoul of the immigration authorities at Detroit and are held in Wayne County Jail awaiting deportation. Among the group are Henry S. Mabee, of Calgary, Alberta, and Gustave A. Auburn, Saskatoon, Saskatchewan.

Preliminary Trade Report

Canada Maintains High Place Among Leading Trading Countries Of The World

The Condensed Preliminary Report on the Trade of Canada for the fiscal year 1930-31, has just been issued by the External Trade Branch of the Dominion Bureau of Statistics. This handy little brochure now comprises 140 pages. It consists of two sections, a "Review" and a "Condensed Statistical Record" of Canadian Trade.

The "Review" deals with the volume and value of the Dominion's external trade. Its fluctuations, distribution, and routes of transportation are examined in respect to both current conditions and recent variations. Several new analyses are included in the present report, Canada's progress and her present position among the great trading nations of the world being explained in detail. More particularly the "Review" treats of the following among other subjects: Relation between trade in Raw and Manufactured Products; Seasonal Fluctuations; Trade by Continents; Exports by Principal Countries; Trade Balances; Principal Commodities Imported; Imports for Canadian Industries; Principal Commodities Exported; Fluctuations in Export Prices; Trade via the United States; Canada's Position in International Trade; Canada's Share in the Imports and Exports of Principal Countries; Canada's Exports Compared with Exports of Other Countries; i.e., automobiles, newspaper paper, rubber tires; wheat; wheat flour; and wool pulp.

The "Condensed Statistical Record" of Canadian Trade now covers eighty-three (83) countries, the commerce with which is segregated and dealt with in detail. This is the only official report containing trade statistics in this form. There are also summary and analytical tables dealing with Canada's trade as a whole.

The report points out that Canada's trade, both import and export, in common with that of the principal trading countries of the world during the fiscal year 1931, showed a marked decline compared with 1930, reflecting the general economic world depression in trade and industry. The severe decline in commodity prices which characterized all world markets during the past year, was largely responsible for this decrease, not only in foreign markets but in domestic as well. Canada, however, during the calendar year 1930 has maintained her relatively high place among the leading trading countries of the world. In 1930, as in 1928 and 1929, the Dominion stands in first position in total trade and total imports, but in total exports dropped from fifth to sixth position, British India moving up to fifth from sixth place.

Copies of this report may be obtained on application to the Dominion Bureau of Statistics, Ottawa.

Will Cruise Around World

Captain J. Errol Boyd, Canadian aviator, who flew the Atlantic, has announced his newest adventure, a race around the globe in a 24-foot yawl. Lieutenant Harry P. Connor, U.S.N., Boyd's navigator on his trans-Atlantic flight, and Capt. L. Justice, of the Washington, D.C., Yacht Club, will be companions.

Model Of Prince's Ranch

The working model of the Prince of Wales's ranch at High River, Alberta, occupying a space of 100 by 50 feet, which was a centre of attraction at the World's Poultry Congress at the Crystal Palace, England, last year, will be set up for display in the World's Grain Exhibition and Conference Building at Regina.

Oppose Sweepstakes

The Government of New Zealand will do its utmost to check participation by residents of New Zealand in sweepstakes conducted abroad. It was announced the postal authorities will intercept all communication in connection with the Irish Free State hospitals sweep.

"Take one spoonful of medicine and four spoonful of water every night before going to bed."
"But, Doctor, we've only three spoons in the house." — Munkete, Vienna.

W. N. U. 1905

Beef Cattle Fed Wheat

Live Stock Important As Medium For Marketing Grain Crops

That the day of dollar wheat is still with us was clearly shown by special feeding tests conducted during the past winter at the Federal Experimental Station at Rothbar, Sask. Tests were made with both low grade barley and wheat. Twenty head of yearling shorthorns were used in the test and the grain was fed with cut oat chaffs. It proved slightly cheaper to produce a pound of grain with barley than with wheat, but the important feature of the tests was the value found for these grains when marketed through beef cattle.

The lot fed ground wheat appeared to relish their ration better than the lot fed barley but there was no waste in either lot. An average of five pounds of grain per day per head was fed. This shows conclusively that live stock is rapidly increasing in importance as a medium for the marketing of grain crops.

Potato Grading

Demonstrations In Proper Methods Of Preparing Potatoes For Market

In response to an announcement made recently by the co-operative and markets branch of the Department of Agriculture, 27 points in northern Saskatchewan have already applied to the branch for demonstrations in proper methods of grading and preparing potatoes for market.

This service is offered free by the department, pursuant to the policy enunciated by Hon. W. C. Buckle, some time ago when he stated that every grower would be rendered by his department to assure the domestic market for Saskatchewan-grown potatoes.

The markets branch is continuing its survey of available supplies of potatoes at points where marketable surpluses exist and also of the potato requirements of municipalities in the dried-out areas.

This information, when compiled, will be handed over to the relief commission.

Foreign Born Not Lawless

Committee Finds Less Inclination To Criminal Acts By Foreign Born Than Native Born In U.S.

After its two-year investigation of the factors involved in lawlessness in the United States, the Wickersham commission, in its final report to President Hoover, made public at the White House, returned a verdict of "not guilty" for the foreign-born who since the birth of the republic have been almost "habitually" charged with a disproportionate share of crime.

Instead of that inclination to criminal acts which for long has been the popular conception, the foreign-born, in proportion to their respective numbers, the commission found, "commit considerably fewer crimes than the native-born."

Prince Albert National Park

Over 26,000 People Visited Park This Year Up To August 23rd.

Total attendance at Prince Albert National Park since May and up to August 23 this year, amounted to approximately 26,000, or more than 9,000 more than total for last year. During July this year the record in the Dominion for one day campers figures was broken twice. On the first occasion 3,400 campers registered at Meridian Cabin, and the following week-end 3,800. Figures for May were 2,289; June, 4,116; July, 11,523, and August to evening of 23rd, about 7,700. Total for the year to date here is 25,628. Total for all of last year 17,000.

Many Use Aerial Photography

It is interesting to note that aerial photography as used in modern topographical mapping by the Topographical Survey, Department of the Interior, in co-operation with the Royal Canadian Air Force, is also in use in many other countries of the world. Maps showing enormous wealth of detail have been produced by aerial mapping methods in other parts of the British Empire, and in the United States, Germany, Switzerland, Italy, Russia, and other countries.

Mistress: "Why didn't you come when I rang?" I told you that when I rang once, I wanted the housemaid, and when I rang twice, I wanted cook."
Maid: "But you rang four times, and we didn't know if you rang once four times or twice twice."

Locomotive whistles that can be heard 15 miles are a good idea. They'll give motorists an opportunity to reach the level crossing by the time the locomotives do.

Air passenger and mail service in Cuba is to be extended.

DIVORCED QUEEN IN EXILE

While Princess Ileana of Rumania was being married with pomp and magnificence to Duke Anton of Austria, in the presence of all the members of the royal house of Rumania, King Carol's ex-Queen Helene, to all intents and purposes an exile, had found a haven with other members of the royal family of Greece as the guests of Colonel and Mrs. James Horlick at Ascot, England. Left to right, in above picture are: Former Queen Sophie, of Greece; Prince Paul, Mrs. Horlick, Capt. Makings, Princess Irene, Miss Katherine Horlick and Princess Helene, once Queens of Rumania.

The Travelling Salesman

Is Much Less Noticeable Than Old-Type Drummer

Have you heard this one? Whether or no, it is now feared that the travelling salesman, as he used to be, is almost as extinct as the dodo. He just "sells" that way any more.

While it was not said that travelling salesmen have vanished, it was claimed that they are less noticeable. The old-time drummer has joined the old-time river-blot pilot, the horse trader, the medicine show man and the buffalo hunter.

No longer does he enter a town by train, swing jauntily to the platform, board the hack for the best hotel, demand and get the best room. No longer does he walk down the street to treat the natives to the latest sartorial display, nor does he visit his customers to convulse them with the latest stories. And saddest part of all, no longer, it is said, does he thrill the local girls.

He has been replaced by the conservatively-dressed, quiet, unassuming salesman, who studies psychology, drives his own car and comes and goes, almost unnoticed.

Had you noticed the change?

Churchill Is Modern Port

Can Handle All Grain Shipments In Short Time

"Even if Churchill's Bay Route is open only two months a year, its modern railway and elevator can handle all the grain to be exported from central and northern Saskatchewan and Manitoba," stated Hon. Frank Oliver, pioneer westerner, on a visit to the Bay Port. He forecast that the Bay route would provide the Port Arthur and Pacific routes with competition, having a pronounced effect on the prosperity of the Canadian west.

Tragedy In Siam

The following is taken from the English section of a Siamese newspaper: "Shooting Outrage—O Pearl! Agony, Khnom Tong was a man of Lampon, and on his return accidentally shot at by miscreant scoundrels. Utterly death, oh fearful! All men expressed their morn. The cowardice dogs is still at large."

Talkies are to be produced in Mexico City.

If An Egg Could Talk

The Answer To The Ailments Of The Agriculturist

If an egg could talk it might say: I am an egg.

I am the embodiment of life and health.

I am nature's original package of vim, vigour and vitality.

I am a perfect little mine of marvellous minerals.

I am the nearest approach to a balanced ration in the original container.

I am boiled, broiled, baked, fried, frizzled, poached, pickled, scrambled, shirred and omeletteed.

I am the inevitable partner of fried ham, and inseparable companion of my brother bacon.

I am the blessing of breakfast; the leaven of luncheon; and the distinction of dinner.

I am the circulating currency of the country; the floating finance of the farmer; the answer to the ailments of the agriculturist.—Dept. of Agriculture, Ottawa.

Advise Use Of Flail

Preparation Of Seed For Exhibition

Purposes In a recent memorandum with respect to the preparation of seed for exhibition purposes, L. H. Newman, Dominion Cerealist, gave the following advice regarding threshing:

"The method of threshing the exhibition grain is a matter of importance. A very good plan is to flail the sheaves by hand on a canvas, spread out on the ground near the stacks or stack, on a bright sunny day. Only a very few strokes of the flail should be given each sheaf as the large, well developed kernels will roll out first. The kernels remaining in the sheaf may be threshed out later in the ordinary way."

Size Up Air Students

Oliver G. Parks, air college head at St. Louis, estimates that after watching 1,300 students graduate from the institution into flyers he can tell within 5 per cent. under a grading system how a pilot will act in an unforeseen emergency.

Population Of Ottawa

The population of Ottawa City proper is given as 146,509 in the new City Directory, while the population of Greater Ottawa is put at 181,925.

Took Advantage Of Mistake

How Officer Of British Air Force Was W.C.C.

The curious incident of an officer of the British Air Force winning a V.C. as a result of the brilliant manner in which he took advantage of his own mistake is recalled in the announcement that Group Captain Lionel Brabson Ross, V.C., and A.D.C. to the King, is placed on the retired list at his own request.

"Whilst on morning duties in France Major Ross (as he was then) sighted what he thought to be a bombing party of our own men. He went to escort them, but on getting nearer discovered there were a party of enemy machines, about 10 in all. He was immediately attacked by one of the machines, and after a short encounter it disappeared behind the enemy lines damaged. Five others then attacked him at long range, but these he dispersed on coming to close quarters after seriously damaging two of the machines. Seeing two others going westwards he shot close to them, but on coming nearer he was wounded in the thigh, causing him to lose temporary control of his machine. He soon righted it and immediately closed with the enemy, firing at the close range of only a few yards until all his ammunition was used up. He then returned home safely."

Ready For Ocean Steamers

Deep Water Wharf At Churchill Is Completed

The last section of this year's crib work at Churchill has been finished, completing the deep water wharfage and making the tying up of ocean-going steamers possible in Manitoba's new port. It is 1,300 feet in length. The elevator is almost finished, and will be ahead of the date specified in the contract, while construction to the power house was completed some weeks ago, and is ready to do its share of the work.

Canadian National Railways gravel trains have been putting in a tail car at the wharf, which is four tracks wide at the elevator entrance, so that it is possible to unload four trains at one time. The cars run over four rocker dumps, which each have a capacity of 20 cars at one time in the unloading. The fill is fine gravel, and the bottom of the dump is protected by large pieces of rock.

No buildings yet are being erected on the towage, which was surveyed again this summer. The health of the camp is excellent. Water is now available from the pipe line, which has been laid from Rosabelle Lake, four miles away.

The "Ungava," the Hudson's Bay boat, left for Chesterfield Inlet, Aug. 13, and the "Ocean Eagle," for the same port, Aug. 15.

Rare Manuscripts

First Edition Of Chaucer Sold In London, England, For High Figure

An exceptionally fine copy of the first collected edition of Chaucer's "Works," printed in London in 1532, was sold at Sotheby's for \$11,250. High prices have been paid for this rare edition in the past but it is many years since a copy of such excellent quality has been offered to the market. Messrs. Sotheby were selling on behalf of Lord Hastings, who sent the work from Melton Constable, Norfolk, England.

Another notable MS. from Lord Hastings' collection was the book of the "Ordinances of Chivalry," compiled by a 15th century scribe for Sir John Astley, famous for his feats of arms in tournaments. The illuminated miniature illustrate various combats in which this English knight took part, and the text describes the rules to be observed in such combats, the ceremonies at royal coronations, and other matters of knightly conduct. This manuscript, which found its way later into the library of Edward VI, was sold for \$8,000.

Red Cross Postage Stamp

In commemoration of 50 years work by the Red Cross, the United States Government has issued a special two-cent postage stamp. The stamp bears the dates 1861 and 1911, and depicts a uniformed nurse kneeling, with one hand on the globe, above which stands the red cross. The colours are grey and red.

The Important Thing

Before much longer, People will be flying around the world in airplanes without a single stop. John Polando predicted at Istanbul. "It does," he explained, "by refusing in the air. The fuel question is the important thing. The greatest problem we faced on our flight was getting off the ground with enough gasoline to bring us here."

The distance between the north and south poles on the earth's surface is 12,450 miles.

Wealth And Civilization

Money Is Menace Unless Used For Good Purposes

"A nation is not civilized because a handful of its members are successful in acquiring large sums of money and in persuading their fellows that a catastrophe will occur if they do not acquire it, any more than democracy was civilized because its king had a golden stool and an army of slaves. What matters to a society is how it uses its possessions. It is civilized in so far as its conduct is guided by a just appreciation of spiritual ends, in so far as it uses its material resources to promote the dignity and refinement of the individual human beings who compose it. Violent contrasts of wealth and power, and an indiscriminating devotion to institutions by which such contrasts are maintained and heightened, do not promote the attainment of such ends but thwart it. They are, therefore, a mark, not of civilization, but of its imperfections, like the gold rings in the noses of barbarian monarchs or the diamonds on their wives and the chains on their slaves. And since it is obviously such contrasts which determine the grounds upon which social struggles take place, and marshal the combatants who engage in them, they present, not indeed, as is sometimes suggested, a conspiracy to be exposed, but a malady to be cured and a problem which demands solutions."—R. H. Tawney.

Teachers Should Travel

Would Be Better Equipped To Impart Knowledge To Pupils

"If I were the Minister of Education I would see to it that no teacher was allowed to stay in the same place more than five or six years without a chance of getting out and seeing the world."

These were the words of Miss A. B. Jamieson, chairman of the Vancouver School Board, spoken at a dinner given to visiting British educators.

There is a lesson in those words. Travel broadens and illuminates the thinking process as nothing else can do. It is the medium by which knowledge of the world goes to children. The mental contact is made when minds are young and most receptive.

In making the most of that contact, teachers need definite pictures in their own minds, which they can implant in the minds of their pupils. Travel makes the pictures direct for them. Equipped with those pictures, the pupils are able to make their own deductions in later life.

Travel for teachers is the best investment educational authorities can make.—Vancouver Sun.

Laying Hens Marketed

Heavy Sales This Year Leads To Talk Of Scarcity

A shortage of flocks of laying hens in Canada appears to be a probability should the marketing of hens continue during the balance of the season at the rate which has characterized this movement since early this year, states a report issued by the Dominion Department of Agriculture. It is doubtful if ever before the movement of hens to market has been so steady throughout the year or so heavy as is the case at present. The report continues:

"The areas of the west which are being affected by drought are marketing hens heavily and two carlots from the west have arrived in Montreal within the past few weeks. Montreal has received carlots of live poultry from the west before but they have been so few as to warrant them being classed as unusual.

"It is probable the price is having some bearing on the situation. Values of live poultry generally are now from three to five cents below this time last year."

Mother—Now eat your softboiled egg, dear.

Doris—I don't like the softboiled eggs.

Mother—Well, pretend you like it.

Doris—No, I'll pretend I'm eating it.

The Brave Miss Brum. Even burglars retreat before a lady!—Brum's, Berlin.

Crossfield Legion To Hold Armistice Dance

The usual monthly meeting of the Crossfield Branch Canadian (B.E.S.L.) was held in the town hall on Saturday last. On account of harvest only a few comrades turned up. The usual routine business was put through and it was decided to hold an Armistice Dance in the U.F.A. Hall on Nov. 11th. Will as many comrades as possible attend the meeting on Sat-Sep. 26, to discuss the arrangements necessary to make this dance a success.

"Bob" Still Going Strong

We have to hand a copy of the Alix Free Press containing an article about their Fair from which we call the following:

Yes, we had a real Fair this year, comprising 1125 separate entries, and while credit is accorded to every

member of the association, we must hand it to Bob Whitfield, the secretary, who has worked day and night for the past two months to put the 1931 Fair over, and those who attended know how he succeeded. Evidently Bob has lost none of his old time pep.

Looking to the Future

Robert Gardiner, M. P., president of the United Farmers of Alberta, says:

"Looking to the future I am confident that Alberta farmers will never be satisfied by any system of marketing that is not strictly co-operative in its basis, because no other system can meet their needs.

"By patronizing Pool elevators we can speed the day when the co-operative system will be firmly established as the normal method of handling our products."

WHEAT POOLING

Alberta Wheat Pool members may pool any portion of their wheat or may sell any portion at current market prices. The choice is left with the individual.

Alberta Wheat Pool elevators are operated under a public license and will handle any grain on an open market basis.

If a non-pool grower desires to pool all or any portion of his wheat he will be required to sign a Pool contract. This contract does not compel him to deliver all or any portion of his wheat on pool basis. It purpose is to lay down regulations under which the wheat is to be pooled.

See that your wheat is delivered to an Alberta Pool Elevator

PREMIER BROWNLEE'S STATEMENT:

"A complete cut-off has been made from previous years' operations and a settlement arranged as between the Pools, the Provincial Governments and the banks. Members of the Pool and farmers generally desiring to do so may, therefore, patronize the Pool elevator facilities with complete assurance that their grain will be dealt with as a separate crop and without in any way being liable for any debts or obligations of past years."

Local and General

Everybody is going to the School Fair on Monday.

Send in local news which you may have. We will appreciate it. F. H. Purvis has now finished extracting his honey.

Mr. and Mrs. Arnold High have moved into the Demereus house.

Miss Ina Fraser left on Saturday for Pemukan, Alta. where she has accepted a school.

The Red Deer Presbytery of the United Church will meet in Crossfield on Sept. 10th.

Mrs. Currie and Mrs. Ellen Cartwright returned on Monday from a two weeks stay in Calgary.

Mr. and Mrs. Brooks of Calgary spent the week-end the guests of Mr. and Mrs. D. Hall.

The Wallock family have moved into the Monkman residence on Alberta Street.

Mr. and Mrs. Metheral were Sylvan Lake visitors on Sunday and Monday.

Hon. Robt. Weir, Minister of Agriculture was a visitor at the Colliett Ranch on Sunday.

Miles Fike has purchased a Chevrolet truck and is now ready to haul anything anywhere.

Constable J. S. Jarman, Mrs. Jarman and family who are holidaying in Montana are expected home this week.

Among those from Crossfield who will attend Normal School at Calgary this term are Miss Grace Williams and Frank Mair.

Mr. and Mrs. J. Crocker and daughter Mrs. Jones returned on Saturday after spending a week at Sylvan Lake.

Don't overlook the special reduced prices on lumber at the Atlas. Read their ad.

Miss Vivian Hewitt visited with friends here last week before leaving for Cremona where she will reside with her parents.

Owing to the harvest season, the Floral Local U.F.W.A. will not hold their regular meeting during September.

Mrs. Metheral and daughters, Marjorie, Myrtle and Genevieve and Miss Kathleen Mair were visitors in Calgary on Saturday.

Mrs. J. R. McNicol and her daughter Mrs. Blough spent Monday visiting Mrs. Bishop at Didsbury.

Lake Parsons has sold his farm near Madden to Mr. Smiley of Calgary and has moved with his family to Dog Pound where he is building a home and general store.

Mr. and Mrs. Chas. Mieland and George Lem attended the wedding of a fellow countryman at Calgary on Sunday.

Miss Lila Havens left on Sat. for Didsbury where she will attend high school and reside with her grandmother.

Mr. and Mrs. Bell left today for their home in Kamloops, B.C. after spending two week's visiting at the home of Mrs. Bell's mother Mrs. Chas. Weber.

"Happy" McMillan was a Calgary visitor on Saturday last. While in Calgary Happy purchased a new radio and now has it erected in his office.

The Crossfield School Board will meet with the parents of Grade 12 pupils on Friday afternoon and decide whether or not Grade 12 will be taught here this term.

At the United Church next Sunday evening the choir will sing "Let the Tower Lights be Burning." The subject of the address will be "The Letter and the Spirit."

Mr. and Mrs. W. McRory returned on Saturday from their vacation which they spent at Waterton Lakes and Macleod.

A. J. Hunter arrived here on Monday from Coronation and has taken over the management of the Midland Pacific Grain elevator formerly known as the Husar elevator.

Carstairs Tennis Club will bring down a number of players on Monday (Labor Day.) Any members of Crossfield Club who would like a game kindly let F. Mossop know.

THURSDAY, SEPT 3rd, 1931

Mrs. Major and son Vivian were Calgary visitors on Monday.

Fred Baker has been laid up for the past week with a severe attack of tonsillitis.

Miss Sixbey of Carstairs will be at the Oliver Hotel on Tuesday of each week to do marcelling. Phone 54 for appointment.

A complete line of stationery and school supplies at the Chronicle office.

Mrs. J. Robertson, the Misses Margaret and Anna Robertson and Angus Robertson spent the week-end attending the Highland Gathering at Banff.

Mr. and Mrs. Bayeroff who have been visiting at the Manse have gone to Barons where Mr. Bayeroff has taken a position on the high school staff.

Louis Lennon attended the Air Show at Carstairs on Friday last. Louis had a twenty minute ride in one of the big planes and claims it is the only way to travel.

Noel Cook one of Calgary's young musicians who at the age of fourteen has his L. A. B. has returned to his home after a three weeks visit with the Metheral family at Mountain View Farm.

Mr. and Mrs. Hepworth and daughter who have been visiting friends and relatives in and around Crossfield, left for their home at Bonners Ferry, Idaho on Sunday last.

Mr. and Mrs. George Leask and Mrs. John Jack attended the Highland Gathering and Scottish Music Festival at Banff on Sat. and Sunday. They report a wonderful time and a large gathering.

The Enterprise Amusement Co. of Calgary will be at the School Fair with their Merry-Go-Round-Swing to entertain the kiddies. The big 15 minute ride for 5c.

Mr. and Mrs. H. R. Metheral and family of Foremost were visitors at the home of Mr. and Mrs. J. P. Metheral during the past week-end. Mr. and Mrs. Metheral were on their way to the Peace River country where they have a homestead.

According to Wednesday's paper the Alberta Enforcement Squad will be done away with and the responsibility of enforcing the Liquor Act taken over by the A. P. P. Fair enough.

Donnie McFadyen is expected home from Chicago this week-end. Donnie has been attending the University of Chicago since the hockey season closed this spring, and is coming home to rest up in preparation for another good season with the Chicago Shamrock hockey team.

Miss Vera Metheral is now forming her music classes. Pupils may be prepared for London Academy, or Toronto Conservatory, practical and theoretical examinations. I have had seven years of teaching experience, and taken two special courses in the art of teaching. Reduced rates this year.

Our notice has been called to a mistake in connection with the results of the Departmental Examinations. Mabel Gordon was given as units taken 7, passed 1, failed 6. This should have read; units taken 7, passed 6, failed 1. We printed the figures correctly as given us by Mr. Hay.

The following donations to the School were omitted in last week's edition:

T. Eaton Co., Calgary, merchandise to the value of \$5.00
Calgary Herald, \$5.00.

Mrs. J. Robertson has donated \$5.00 in cash to the School Fair to be given as prizes for races for children 12 years and under.

Community Sale

Remember the Community Auction Sale to be held in Crossfield early this fall. If you have anything of value which you have no further use for turn it into cash. From present indications this will be a large sale, as many different lines of machinery, household goods and live stock have already been listed.

List what you wish to dispose of with L. Parr, auctioneer, Air-drie or with Thos. Tredaway, Crossfield.

We have a new stock of school supplies for this year. Prices have been reduced on many lines and it will pay you to get our prices—Crossfield Chronicle.
